Did You Know

- A fast Pinewood Derby® car can reach a speed of nearly 20 miles per hour. Pretty good for a little block of wood!
- If a Pinewood Derby® car racing down the track was enlarged to the size of a real automobile, it would be speeding at more than 200 miles an hour. That's fast!
- The first Pinewood Derby® was run in 1953 at the Manhattan Beach Scout House near Los Angeles when Cub Master Don Murphy introduced the idea to Pack 280C.
- Over the years, Cub Scouts have built close to 100 million Pinewood Derby® racers. That's a lot of cars!
- If you lined up all the Pinewood Derby® racecars, bumper-to-bumper, they would reach more than 7,000 miles—far enough to stretch from Charlotte, North Carolina, to the North Pole!
- If every Pinewood Derby® car made this year took just one run down the track, the combined distance would be from the Earth to the Moon and back. That's out of this world!
- *Reader's Digest* magazine included the Pinewood Derby® in its 2006 Best of America list as "a celebrated rite of spring." Way to go, Cub Scouts!
- No Pinewood Derby® car has ever used a drop of gasoline. Gravity rules!
